

Columbia County Exhibition Center

Purpose:

This conference will afford select vendors a venue to present their technologies and vision to the FNA membership in a format allowing both the Vendors and Members to share and learn in a private setting supporting our businesses and building vital relationships with decision makers.

Who we are: FNA is a strategic alliance of organizations focused on aligning their fiber network resources for the purpose of providing a unified platform to create business and operational advantages for its Members. We, as FNA's Members, are like-minded with similar goals, needs, and challenges and we believe we are stronger together than apart. We believe the size and character of our organizations provides essential value to the people in the areas we serve by providing services, local jobs, and economic benefit that would not otherwise exist. We provide the necessary check and balance our country needs to larger organizations. We provide the type of creative entrepreneurial spirit that formed our country and that is necessary for America to remain the greatest country in the world.

Who Should Attend:

Members, invited guest, and invited vendors only. FNA members companies may bring up to five staff / representatives.

"Aligned to Strengthen our Service to our Communities"
